ABOUT ME

Creative web developer with experience in building, optimizing and maintaining the performance of user centric websites. Clear understanding of modern technologies and best design practices. An ambitious problem solver willing to join a team of like-minded people.

WORK EXPERIENCE

Full Stack Web Developer   May 2023 - Current
Pixy Square

Responsible for building maintaining and optimizing web applications for reputed companies. Polished my **MERN** stack skills to expert level and lead the team to deliver the results within the stipulated period of time. Good interpersonal & communicaiton skills to deal and meet with the **client's requirements.**

Backend Developer (Team Head)   November 2022 - May 2023
Duckcart

Lead the team of 12 members, optimized and maintained main server(AWS) of the company along with the database(MongoDb). Added numerous features like Payment Gateways, Notifications, International currency conversion. Played an important role in the development of new Startup website. Learnt important tools like **Slack, Jira, Notion** etc.

Full Stack Web Developer (Intern)   February 2022 - June 2022
QWings

Updated my old coding skills and learnt time management. Added features related to backend like login, signup, authentication and saving data to database. Also learned advanced and cutom hooks used in react to **optimize** the website and provide **best user experience.**
